## Accounting Option

ResellerPower™ offers double entry accounting. All the data flows through to the GL so data is entered only once and saves your company time. Create invoices and auto deduct inventory. Print profit and loss and Balance Sheet from the GL. Plus export the GL into other financial packages like MYOB for more in-depth analysis.

## Credit Card Processing

Bypass the middleman and sign up direct with a major credit card processor to save on discount amount and fees. Use multiple merchant accounts so you can process retail, mail/phone orders and online orders. Process manual and swiped credit cards without expensive terminal rentals. Benchmarks consistently sustain 1200 transactions per minute.

## Option Pack One

Includes Calls, Contacts, Labels, Personnel, Schedule, and Till.

- Contacts allows you to keep track of individual information for your client contacts. Contacts includes the Write module that allows you to quickly create letters, fax cover letters, envelopes and track telephone calls.
- Till - track payments per till.
- Calls - track time, duration and notes for incoming and outgoing calls.
- Schedule - Print calendars of appointments and events. Links with Apple iCal.

## Option Pack Two

Includes Expenses, Prospects, Returns, Service, and Support.

- Service - Manage a service department for repairs and bill for service performed.
- Expenses - Keep track of users' mileage and reimbursed expenses.

## FedEx Shipping

Ship domestic invoices without having to login to fedex and retype addresses. Links directly and prints labels.

## rpCart

Internet eCommerce that integrates with ResellerPower. Run on your own web server. No need to pay extra monthly fees.

Easy, Powerful, and Modular

dSoft

- Maintain up to six supplier price lists.

## ResellerPower Versions

The **SUI** version is a single user internet download version.

The **SU** version is a single user version. CD includes PDF user and admin manual, quick reference and quick tutorial.

The **NU** version is the base network edition with 2 users.

The network versions includes one platform host license and 2 user licenses for Mac and Windows clients. You will need a license or full version of FileMaker Pro v5.5 or higher for each client. You will need FileMaker Server v5.0 or higher to host ResellerPower over your network. The standard version (NU version) allows you to change many options like the company logo and company address. If you would like to customize ResellerPower yourself, consider the following versions that allows you to arrange text or logos in different places.

The **NO** version (Network Open version) includes unlimited users and allows you to make your own custom changes. This version allows you to edit forms, reports and layouts, and also edit and create scripts and fields.

SKU / Part No	Vendor / Description	Qty / Wt	Price	Extended	Invoice No
